

COUNTY OF TWO HILLS NO. 21

Policy Number

PUB-GRV-4

Title

Private Gravel Sales – Industry

Page 1 of 2

Date Approved

February 21, 2018

Policy

The County of Two Hill may provide Industry with the opportunity to purchase crushed gravel and will make crushed gravel available for sale to Industry of the County of Two Hills (locations must be within County boundaries). Additionally, the County wishes to protect its assets and ensure the safety of the County employees.

County Council will determine the rate at which gravel will be sold and delivered to Industry as determined by resolution annually.

County Council reserves the right to limit the amount of gravel to be sold to Industry.

Industry can place their gravel order through the Public Works Department beginning April 1 and will be accepted as long as late season weather permits supply and delivery. The end date will be at the discretion of the Public Works Supervisor and/or designate.

Industry will be allowed to choose from these non-spec categories:

- a) ¾ inch crush gravel
- b) 1 ½ inch crush gravel
- c) 2 inch crush gravel

All sales are dependent on surplus availability of product and ability to deliver the product (not to be used for resale).

A County of Two Hills Gravel Delivery Agreement must be executed and paid in full prior to gravel sale and/or delivery.

Gravel picked up in the County public works yard/pits will be charged at full rate.

Page 2 of 2

Gravel will be delivered in a minimum quantity of 10 cubic yards.

Industry will have the option to have the gravel stockpiled and spread as needed. Industry must ensure the area(s) gravel will be delivered to be free of obstruction and safe for County crews and equipment to work.

During all deliveries, the County driver will have the discretion to determine if conditions permit the gravel to be spread out. In instances where a property is difficult to access or other safety concerns are present, the County will deliver all gravel in a pile and will not spread the gravel.

Pre-inspection of the delivery site may be necessary to determine the type of unit to be used for delivery.

The County reserves the right to refuse delivery of gravel to any Industry if the area(s) is deemed by delivery staff as unsafe or difficult to access.
