## AGRICULTURAL SERVICE BOARD

### CLUBROOT FIELD INSPECTIONS

Please be advised that Pest Inspectors will be scouting for clubroot disease and infection in canola fields until freeze-up, accessing fields via approaches.

Designated as a pest under the *Agricultural Pests Act*, Clubroot is a soil-borne disease which reduces yields of canola and other cruciferous crops. Clubroot is spread primarily through movement of soil and infected plant materials. Producers are encouraged to clean debris and disinfect equipment prior to moving to new fields to reduce the spread of clubroot to new areas.

Inspectors will follow sanitation protocols to prevent the spread of clubroot. Landowners of fields that test positive for clubroot will be notified in writing. Questions or concerns may be directed to the ASB Department at 780-657-3358.

### Tips and Tricks

- ✓ Choose light-coloured, flame-resistant costumes with reflective strips so kids are easily seen at night.
- ✓ Children should stay on sidewalks—walking, not running, and definitely no slithering or sneaking in the street!
- ✓ Avoid costumes with masks or items that obstruct their vision – use face paint instead.
- ✓ Plan a trick-or-treat route ahead of time and ensure kids follow one side of the street before crossing to the other.
- ✓ Ensure trick-or-treaters travel in groups of at least four or five. Young children should always be accompanied by an adult.
- ✓ Visit homes that have the porch light on to signal that they're open to trick-or-treaters.
- ✓ Accept treats at the door only—never enter strangers' homes or cars.
- ✓ Remind children not to eat candy until it's inspected by an adult at home. Avoid consuming treats if the packaging is already opened.
